AMENDMENT TO THE SPECIFICATION

Please amend the abstract of the disclosure at paragraph [0038] as follows:

~~Systems and methods that output search results are described.~~ ~~In one embodiment,~~ A
~~a~~ search engine implements a method comprising receiving a search query, identifying a
plurality of item identifiers responsive to the search query, identifying a first group of item
identifiers from the plurality of item identifiers, wherein the first group of item identifiers
was obtained by a first method, identifying a second group of items from the plurality of item
identifiers, wherein the second group of item identifiers was obtained by a second method,
and causing the output of all or a plurality of the item identifiers, comprising providing a cue
to distinguish between the item identifiers from the first group and the item identifiers from
the second group.
